

Minwook Shin

Design Engineer / UX Engineer

Savannah, GA | Full-time Sept 2026 | ind3432@gmail.com | [912-215-5543](tel:912-215-5543) | minwookshin.com | linkedin.com/in/minwookshin | github.com/minwookshin

SUMMARY

Design Engineer / UX Engineer focused on interaction systems, AI-assisted prototyping, and product interfaces. Expected SCAD BFA in UX Design in Aug 2026; available full-time starting Sept 2026. Works across Figma, product thinking, frontend prototyping, SwiftUI, and AI workflows to turn ambiguous ideas into credible interactive proof for small, fast-moving product teams.

SKILLS

Design Engineering: UX engineering, interaction systems, product interfaces, design systems, design-to-code workflows

Prototyping: Figma, working prototypes, SwiftUI, Framer Motion, responsive interfaces, motion details

Frontend + AI: React/Next.js familiarity, TypeScript/JavaScript, HTML/CSS, Tailwind CSS, Gemini API, Git/GitHub, Vitest

EXPERIENCE

UX Engineer / Design Engineer | BMW x SCADpro Sponsored Studio, SCAD

Savannah, GA | Mar 2026 - May 2026

- Translated research and stakeholder goals into AI-native product interface concepts, interaction models, and prototype flows for a BMW-sponsored studio.
- Built evaluable prototypes and product narratives that connected UX strategy, interaction design, and implementation feasibility for review.

Website Officer | SCAD FLUX

Savannah, GA | Mar 2025 - May 2026

- Designed and maintained the public SCAD FLUX website, improving information architecture, event communication, responsive layout, and design consistency.
- Worked like a small product team: shipping web updates, cleaning content flows, and tightening interface details for student and community use.

AI UX Designer | Daybreak x SCADpro Sponsored Studio, SCAD

Savannah, GA | Jan 2026 - Mar 2026

- Designed AI-driven product experience concepts across information architecture, research synthesis, and interaction prototyping.
- Created Figma prototypes that communicated user flows, system behavior, product value, and AI-native interface decisions to stakeholders.

UX Design Team Manager | Beachview x SCADpro Sponsored Studio, SCAD

Savannah, GA | Sep 2025 - Nov 2025

- Co-led UX/UI design work for a sponsored SCADpro project, translating brand values, business requirements, and user needs into digital experience concepts.
- Guided design direction across research synthesis, interface exploration, Figma prototyping, and stakeholder-facing presentation materials.

SELECTED PROJECTS

Portfolio AI | Design Engineer / UX Engineer | Figma, Gemini API, Next.js/React familiarity, TypeScript, Framer Motion

www.minwookshin.com/work/portfolio-ai

- Built an AI-assisted conversational recruiter portfolio with Gemini-powered chat, AI-readable project docs, motion previews, public demo proof, and a portfolio interface for recruiter exploration.

Sentinel | UX Designer / SwiftUI Prototyper; Winner, Google x SCAD FLUX Hackathon 2025 | SwiftUI, Figma, Gemini API

www.minwookshin.com/work/sentinel

- Designed and built a 48-hour SwiftUI MVP for climate-risk home maintenance, including an AI-generated action-plan flow, risk dashboard, and insurance-impact interaction model.

Interaction Systems | Interaction Designer / Prototyper | Motion systems, interface behavior, responsive feedback

www.minwookshin.com/work/interaction-systems

- Created motion and interface studies exploring cursor behavior, hover states, route transitions, motion rules, and responsive feedback for product interfaces.

EDUCATION

Savannah College of Art and Design | BFA, User Experience Design | Savannah, GA | Expected Aug 2026

Certifications: Design Research & Insight Translation, Lextant; AI Fluency: Framework & Foundations, Anthropic; Claude with the Anthropic API, Anthropic
